DEATH IN THE STRIKE.

Two Killed and Several Injured Near Pekin, Ills.

ENGINEER KILLED IN INDIANA.

Officers of McKeesport, Pa., Visit Duquesne and Penna. the Workmen Out After Destroying Property—Colorado Mine Strikers Becoming Less Violent.

McKEESPORT, Pa., June 7.—No attempt has been made to start up the National Tube works. The strikers are swarming around the works and the depots. Every point is being watched by them, and trouble will surely follow any attempt to interfere with workmen or depots. Some one came among the strikers congregated about the two works and announced that some two thousand were working at the steel plants across the river. A mad rush was made by 700 or 800 men to get a step to it. When they reached the tipple of John Davitt it came down before the onslaught within a few minutes. From there the crowd made a break for a new tipple being erected by John McElroy, about a mile above. The McElroy tipple shared the same fate as the Davitt.

Three barges of coal were cut loose at McElroy's and floated down the river. Six cars of slack were burned while in the Pittsburg and Lake Erie yards because the strikers thought they were intended for the tube works. Then the crowd crossed the bridge to Rhodes' Station and freed Jankie Butcher's claim and platform.

A worker named Lauerbach, who was injured on Friday, died on the hospital bed last night.

After the destruction of works the mob started for Duquesne. When it reached that place it had increased to 4,000 strikers and sympathizers. With fulls they attacked the Duquesne Tube works, drove all the men at work out of the plant, drew the irons and ran the hot metal from the furnaces out on the floor.

The reason the strikers give for their strike was that the work was being black sheep coal. The miners were followed by thousands of spectators, threatening the outcome of surrounding battle.

As the workers left the city one of the men threw a plank in front of an approaching freight train, nearly derailing it. They left the mill on the 8th and started back over the hill to attack the coal pits in Mill Hill, unless a treacherous move is made by one side or the other.

Afairs were deadlocked until 3 o'clock yesterday afternoon. Although the depots cut all the telegraph wires between this city and Midland, the miners were quickly informed by their leaders of the advance of the sheriff's force, and prepared for battle. They were willing to submit to the militia, but declared they would never be arrested until the troops arrived.

Major Lindsey and President Parker, of the First National bank, called up Sheriff Bowen by telephone and begged him to stop his deputies until the troops could reach camp. Sheriff Bowen agreed to this, and there is every reason to believe that there will be no further hostilities. Also Mcintosh, representative of the miners, announced that they would lay down their arms immediately on the arrival of the state troops. The deputies will follow the troops to the miners' camp and serve warrants which they are said to hold for 500 strikers.

One group of strikers, consisting of 150 persons, left for the northern part of the state to strike in sympathy with those in the southern part, but failed.

BLOODY BATTLE IN ILLINOIS.
Two Killed and Several Injured in a Fight with soldiers.

Pekin, Ills., June 7.—There was a bloody battle at Littleton and Linton. Five soldiers from Pekin, Ills., were killed and twenty-four wounded. The sheriff, Sheriff Frederick, was in a press and set out for the scene. The strikers gathered at Dentonville and spread the Illinois by fire. There were about 500 men and some women.

The sheriff and posse re-enumerated with the mob in view. The leader of the strikers, with a revolver in each hand, cried out "Molasses," and the crowd charged on the soldiers. The two soldiers and their two sons and a son-in-law retreated to the tower where the fight and opened fire on the attacking party, some of whom were soon to fall. The fire was returned, and hundreds of shots were fired into and through the tower. The Littleton hoisted a white flag, but the firing did not cease. The tower was set on fire and up shot the flames. It was feared the powder would be reached, and the crowd retreated. The streets were kept closed.

The killed were John Jackson, colored, a native of Latrobe; Ed. Moore, one of the strikers. Wounded—Ed. Foster and Peter Justice, of the besieged, the former shot in the breast, probably fatally. Half a dozen others were slightly hurt. There are a number of miners in the shaft, when it is feared, are suffocated. Among them are George Justice and John Kirby.

The sheriff and posse have returned from the scene unable to cope with the mob.

THE MONTLAND STRIKERS. An Attempt to Blow Up a "Bank" Below Creates Terror.

FORTRESS, Md., June 7.—Dutchments from the Fourth and Fifth regiments are patrolling the little town in the neighborhood of the mines in the Maryland coal region, and the experience does not resemble play soldiering. The effect is that the miners are more scared now than ever. The post is kept so secret to prevent, if possible, a repetition of the dastardly dynamite outrage which took place near the Robert mine yesterday.

It has been pretty well known for some time that a number of the strikers were supplied with dynamite and some of this, or from other source, was used on the house of Charles Lancaster, one of the miners who has stood by the company. Lancaster, his wife and his sister were asleep in the house at the time, and their escape is almost miraculous. The whole front of the house was shattered. The explosion was accepted by the miners as a warning of what would come, and many fled away from work on this account, although protected in their passage to the mine by the military. Yesterday, in spite of the protection, at the five mines only 12 men went to the works.

At 4:30 last evening there was considerable excitement at the railroad station, and rumors of gatherings of strikers on the hill above the station brought out both regiments under arms. Investigation, however, proved that there was no truth in the rumors.

Engineer Killed by Strikers.

BALTIMORE, Md., June 7.—A crowd of angry miners blocked a Vandals freight train east of here and seized the trainmen. The engineer, William Barr, was struck on the head by a heavy stone and instantly killed. **Brundage & J. Hardman** were hit on the back and badly hurt. The miners continued breaking windows and every window in the station and engine was broken. The excitement is intense. Officers are in pursuit of the strikers. Earlier in the day a crowd of strikers stopped the mixed train, carrying freight and passengers between this place and Clay City, on the Evansville and Terre Haute road. The train was hauling iron ore of coal and also the United States mail. The coal was deducted.

Two Coalminers on Saturday.

CINCINNATI, O., June 7.—The following miners' conference will be held next Saturday: Central and western Pennsylvania, Ohio, Indiana, northern and eastern Indiana, at Kate St. Louis, Kentucky and Tennessee, at Louisville, Tenn., Arkansas and Indian Territory, Missouri and Kansas, at Kansas City, Iowa, at Oskaloosa, Des Moines, Beaver, Lawrence and Mercer counties, at Mercer C. H. St., Latrobe, Pa., at Latrobe, Beaver, O., at Paducah, Kentucky, and Eastern Kentucky, at Danville; southeastern Kentucky, at Cincinnati; Maryland, at each trip and place as miners and engineers may agree.

Working with Imported Men.

PITTSBURGH, June 7.—The first determined effort of the coal operators in the Pittsburgh district to break the strike was made at several places yesterday. At Midway the Tanglewood Gas Coal company put into their mines 100 deportees, heavily armed to prevent the non-cooperators who went to work. The strikers have been thrown into the widest expectation by the arrival of suspended men and deportees. The operators on the Tanglewood and Greenhills will also make an attempt to operate their mines, within the next forty-eight hours with imported men.

Peace Program for Strike.

PITTSBURGH, June 7.—The program for a settlement of the miners' strike by joint committee members meeting at Columbus has come to naught, as far as the Pittsburgh district is concerned. The Pittsburgh committee appeared to represent the operators of this district as divided, and unless there is a change of sentiment a majority will oppose the Columbus conference and insist upon a sixty-day extension. Meanwhile the thick sets of operators of the Tanglewood are preparing to resume work with men under protection of deputy sheriffs.

One Troop Chased Out.

CINCINNATI, O., June 7.—Governor McGraw has ordered out a force of 1,700 militiamen to the scene of the strike in eastern Ohio. All of the command of the Fourteenth regiment and the Eighth regiment and several companies of the Seventeenth regiment have been ordered out. The Fourteenth regiment left on a special train at midnight for eastern Ohio. The scenes of the trouble are in Belmont and Guernsey counties.

Cook Forces Chased Out.

CHARLESTON, W. Va., June 7.—Five coal trains on the Baltimore and Ohio were stopped by a mob of strikers at Davis, west of Bellair, and the tracks blocked. The sheriff has gone to the scene, but as he has no deputies he will not be able to accomplish much. Coal trains on the Wheeling and Lake Erie were stopped at Lauratown, and no West Virginia coal whatever is now being shipped by any of these roads.

Soldiers Retreated on Both.

ST. JOSEPH, Mo., June 7.—The most who were arrested charged with treason. A Spanish, it is true, had been released on bond yesterday, a formal charge having been made against him in the criminal court. The trial was adjourned in each case, and was rescheduled by the city marshal of Richmond, Mo., who brought the two sufficient money to pay their fare home, for which place they left at once.

Ladies Who Cheat.

What a great number there are, how uncomfortable it makes them; it is almost impossible for these ladies to enjoy life. In my private practice I have always found physician's Balm to be the best remedy. All who are thus troubled should use it.

A NOTED CROOK DEAD.

**Edward Kelly a Victim of Asphyxia
in Manhasset.**

BALTIMORE, Md., June 7.—The old man supposed to be Alexander Stewart, who was asphyxiated by gas on Monday, is said to be none other than Edward Kelly, at one time one of the most notorious confidence men, gamblers and boarding house thorps in the country. His name adorns the poem of "Confidence of America." He was known as Harry A. Warren throughout the country and Canada as a most accomplished crook. He was arrested in New York in 1870 for getting \$600 worth of furniture for a worthless check of \$750, and receiving \$100 in change. For this he got two years and six months in prison. His next exploit was in 1879, when he stole money and jewelry to the extent of \$1,000 from a boarding house in Washington square, New York. In this case there was a lack of evidence and Kelly went free.

In 1880 he succeeded in getting a New York job as a bartender, where he met an Another Neo-stomper, one of the notorious.

He was arrested in 1881 for robbing a safe in a hotel in New Haven, Conn., and was sentenced to ten years. He was paroled in 1886, when he got out on parole. THURSDAY, JUNE 7, 1894.

The Silver League announces its willingness to spend \$100,000 to elect Gen. Weaver, who was nominated for Congress yesterday, by the Populists and free silver Democrats of the Ninth Iowa District.

Secretary Carlisle said, yesterday, although it was probable that gold shipments would continue for some time, he has no thought of issuing bonds, with which to maintain the gold reserve. The treasury is well supplied with cash, the balance, yes terday, having been \$115,000,000, of which \$42,000,000 is a working currency balance, which is not likely to be materially reduced within the next two months.

Lord Rosebery's colt won the Derby, yesterday, thus fulfilling the last of three ambitions credited to him in his youth—to marry England's richest heiress, become Prime Minister and carry off the blue ribbon of the Derby. The winning of the Derby directs attention to the different views of the turf taken in England and in this country. There the achievement of the Premier's ~~believed to have given~~ the Rosebery ministry a stronger hold on the confidence and good will of the English people; here a horse racing minister would be driven out of the Cabinet by the clamor of the moral sense of the whole country.

The bears on railroad shares and on the cereals were roughly handled at the Exchanges, yesterday. The rise in prices set in at an early hour and was continuous until the close of business, when they were highest. The advance in wheat was three cents a bushel, and was a good four cents a bushel higher than the figures of three days ago. In this there was nothing surprising, as the mass of operators have been of one mind, that wheat was sure to go to fifty cents, and so with a "dead sure" thing in view, they were all betting that way—hence, if for no other reason, this "twist" on the market. But, doubtless, a few great capitalistic operators have been making use of the golden opportunity afforded by this quite unanimous bear sentiment, and the unprecedented low price, for enormous purchases, the outcome of which may be a corner on the July option.

The railroad share market has for months been as badly demoralized as has been the wheat market. All timid holders have been "shocked out" and have either abandoned the street or turned bears to recoup their losses; and small wonder, for what between receiverships, ruinously low earnings, strikes, and Populist threats of confiscation of property, in the parlance of the day, it required a "good deal of sand" to take the buying side of the shares of even the best managed and soundest of roads. And yet, it is in just such black times, when all hope has fled, that the tide of fortune offers. The few, the very few, have the courage, however, to get aboard, the mass waiting until things are booming before venturing.

But apart from what has preceded as to bears and bulls in grain and stocks, this new strength in prices of each is, it is unmistakable, the reflex of a rapidly crystallizing conviction among the men who lead in all great successful speculative operations, that the country has seen the worst of bad times—that the tide is finally turned. There are good grounds for this. The tariff settlement is close at hand. Stocks of manufactured goods were never so low. Money was never stored in banks in such masses. Energy was never so tired of inaction.

The arms of Coxey and Gulvin are being slayed out of their camp near Washington, for they have no means of subsistence except what they can beg or steal from people living in the neighborhood and the giving party of the community is exhausted and everything stendable has disappeared. Coxeyism is failing every day and will soon be forgotten. We do not know a new thing the news reports make much of it and chronicle all the movements of the "army" so that the doings of the bushwhacking bands of vagrants received more prominence than was ever before given to the doings of tramps. The armies were more of a nuisance than a real menace to public safety, for so long as they remained in detached bands they were easily coped with whenever the authorities tried to hold them in check.

but could Coxey's dream have been realized and a hundred thousand Commonwealers been massed in front of the Capitol, very serious consequences might have resulted.

The most significant utterance of the Ohio Republicans' platform is its declaration in favor of bimetallism: "We advocate such a policy as will, by discriminating legislation or otherwise, most speedily restore to silver its rightful place as a money metal." That word "otherwise," makes the platform as rank as any, that is ever emanated from the silver States. It is the cover for all sorts of financial heresies.
